Niangjun Chen

1200 E California Blvd, Pasadena CA 91125, MC 305-16 | ncchen@caltech.edu

http://users.cms.caltech.edu/~ncchen

Research Interests

I am broadly interested in the design and analysis of online algorithms, optimization, mechanism design and their applications in enhancing energy efficiency in power grid and data centers.

Education

California Institute of Technology

Ph.D. candidate in Computer Science	GPA 4.1/4.3	10/2012 – present
Master of Science	GPA 4.1/4.3	10/2012- 06/2014

University of Cambridge

B.A. in Computer Science	1st Class Honors in all three years	10/2008 – 06/2011

Honors and Awards

ACM Sigmetrics Student Travel Grant	2015, 2016
National Science Scholarship, A*STAR, Singapore	2012
A*STAR Roll of Honor	2012
Foundation Scholar, Pembroke College Cambridge University	2009, 2010, 2011

Professional Activities

Reviewer for:

IEEE Transactions on Networking
IEEE Transactions on Automatic Control.
IEEE Transactions on Smart Grid.
IEEE Transactions on Power Systems.
IEEE Wireless Communications and Networking Conference (WCNC) 2012, 2014

Teaching Experience

TA for CS 146 (Platforms and Internet Marketplaces), Spring 2016
TA for CS 144 (Networks: Structure and Economics), Winter 2015
TA for CS 144 (Ideas Behind Our Networked World), Winter 2014
TA for CS 101C (Special Topics in Data Privacy), Spring 2013

Tools and Techniques: Proficiency in Java, Matlab, C/C++, Python, good working knowledge with Bash scripting, HTML
